AMERICAN HEALTH
ADVANTAGE
OF MISSOURI

FACILITY CLINICAL GUIDE FOR I-SNP MEMBERS

American Health Advantage of Missouri is a Health Maintenance Organization (HMO) contracted with Medicare and offers Institutional Special Needs Plans (I-SNP) specifically designed for eligible Medicare beneficiaries living in one of our participating long-term care nursing homes or assisted living facilities or individuals living in the community that require an institutional level of care.

In addition to providing all standard benefits offered by traditional Medicare, we include:

- Part D pharmacy benefits
- supplemental benefits not covered by traditional Medicare
- extensive clinical care management to ensure every member receives the services necessary to achieve their short- and long-term care goals.

Our plan is contracted with TruHealth Advanced Practice Providers (Nurse Practitioners and Physician Assistants) and RN Case Managers who, along with our clinical pharmacists, work with the member's primary care physician to address each member's full range of medical, functional, and behavioral health care needs in a coordinated and member-centric manner.

Authorization Processes for
American Health Advantage of Missouri
I-SNP Members**

Utilization Management and Authorizations

American Health Advantage of Missouri is an HMO and as such has processes to manage services through our Utilization Management (UM) team.

First 30 days after enrollment: American Health Advantage of Missouri has a Continuity of Care Policy. During the first 30 days after a new member enrolls in American Health Advantage of Missouri we will evaluate for any equipment or services that are already in use or scheduled. The I-SNP APP is responsible for identifying these services and assuring that an authorization is in place so services can continue.

Durable Medical Equipment: American Health Advantage of Missouri has contracted with vendors in your area for services. We strive to use these contracted vendors when at all possible.

Members must meet Medicare requirements for DME; and it must be DME that is not normally provided by the facility under room and board. If a member meets Medicare requirements and the equipment is under \$250, no prior authorization is required. If a prior authorization is required, the I-SNP APP will submit the authorization request.

Part B Therapy Services: An authorization is not required for an evaluation or services. If the member requires therapy (PT, OT, or ST), the therapy department will contact the assigned I-SNP RN Case Manager and notify them that a member is starting/ending therapy services. The I-SNP RN Case Manager will monitor and follow the member receiving the therapy services. Once the member is discharged from therapy the I-SNP RN Case Manager will work with the therapy department to ensure the NOMNC has been delivered and a copy has been sent to American Health Advantage of Missouri.

Part A Skilled Services: An American Health Advantage of Missouri member must meet Medicare criteria to receive skilled services. The three-day hospital stay required by traditional Medicare is waived by American Health Advantage of Missouri if a member meets criteria. Following a hospitalization, the facility should contact the I-SNP RN Case Manager Team Lead who will confer with the I-SNP APP. If the member meets criteria for skilled services, the I-SNP RN Case Manager will submit the authorization. It is the responsibility of the facility to deliver the NOMNC.

2025 Services Requiring Prior Authorization

Prior Authorizations are required for the following covered services (by service level). Services must be provided according to the Medicare Coverage Guidelines and limitations and are subject to review. All medical care, services, supplies and equipment must be medically necessary.

- **Ambulance Services** Medicare covered non-emergency Ambulance transportation services (**NOTE:** No authorization is needed for non-emergency transport from hospital to nursing home and nursing home to hospital)
- **Cardiac Rehabilitation and Intensive Cardiac Rehabilitation**
- **Diabetic Supplies** with billed charges in excess of \$250
- **Diagnostic Radiological Services** e.g. High-Tech Radiology Services including but not limited to MRI, MRA, PET, CTA, CT Scans, and SPECT require prior authorization. (**NOTE:** No authorization required for Outpatient X-ray Services)
- **DME, Prosthetics, and Orthotics** with billed charges in excess of \$250
- **Genetic Testing**
- **Home Health Care**
- **Inpatient Care** including but not limited to Inpatient Acute, Psychiatric, etc.
- **Medicare Part B Chemotherapy Drugs** with billed charges in excess of \$250
- **Other Medicare Part B Drugs** covered drugs with billed charges in excess of \$250
- **Out-of-Network Providers / Services** including but not limited to physicians, cardiac rehab, intensive cardiac rehab, DME, prosthetics, orthotics suppliers, diagnostic tests/procedures, genetic testing; non-emergent ambulance transport, therapeutic radiological services, ambulatory surgery centers, inpatient and outpatient hospital and outpatient hospital observation, home healthcare, outpatient physical, speech/language, occupational therapy, skilled nursing facility care, etc.
- **Outpatient Hospital and Ambulatory Surgery Services**
- **Outpatient Observation**
- **Partial Hospitalization**
- **Skilled Nursing Facility** Medicare-required three midnight stay is waived
- **Therapy Services** (Physical, Speech, and Occupational Therapy) **Not** performed at LTC residence or other SNF Therapy Setting

NO AUTHORIZATION IS REQUIRED FOR:

- Medically necessary emergent services
- Urgently needed care
- Dialysis services
